

THE Gilson SNOWBLOWER SHOP

The Gilson Registry

The following is a compilation of information from a variety of sources including published manuals, my private collection and recollections as well as reader supplied machine descriptions. It is not an official factory list but it is believed to be accurate and known to be incomplete. Models are listed in numerical order ignoring prefixes and suffixes. If you have a Gilson or Gilson Built machine not covered here please Submit a Gilson Sighting. First name credit is provided to the first person to submit a unique model number. Country and province are also noted for machines sighted outside of the United States.

Model Number	Brand	Engine HP	Engine Brand	Width	Stages	Forward Speeds	Reverse Speeds	Basic Family	Credit Location	Circa
SB5	New Holland	5	B&S	26	2	4	1	Modified UniTrol	Robert	1972
